Madero Interior Doors Core Selection

Hollow Core

Hollow core doors are lighter and generally less expensive, but still durable and dependable.

Solid Core PBC

PBC solid core doors feature a particle board core that provides excellent sound reduction and years of dependable service.

Fire-Rated Core

Fire-rated cores offer fire protection and added safety when used in combination with certified frames and hardware. Available on moulded and flush doors as 20 minute rating.

Flat Panel

Shaker Doors

West Four Aluminum

West Four Aluminum (formerly Dorland Doors) produces high-quality exterior aluminum products. The modern industrial trend is now bringing that look into the home.

In Dark Bronze, Clear Anodized, or Black Powder Coat we can fabricate a single door or a complete wall system with a swing door. Watch for more to come with this exciting and new product offering.

Pocket Door Hardware

Johnson Pocket 1500

Suitable for 1-3/8" doors up to 125 lbs each. 1-3/4" requires adapter kit.

This series is designed to carry heavy standard sized doors in 2 x 4 timber or steel framed stud walls. It is versatile and can be adapted for use in non-standard wall thicknesses, block masonry walls, and can be cut down to accept any smaller size door.

Stocking Size Max 36" width x 6/8, 8/0 height; 4-1/2", 6-1/2" wall thickness

Application Interior, Residential

Capacity 125 lbs (57 kg) each

Door Thickness 1-3/8", 1-3/4 requires adapter kit

Add-Ons **Johnson 1060 Soft-Close Kit**

Make your sliding doors soft-close quietly and securely.

Features

- Use with new or existing Johnson Hardware sliding and pocket door hardware.
- Holds door securely in place.
- Prevents pinched fingers between door and jamb.

Johnson 1060 Soft Close Kit

Crowder Type C Pocket

Suitable for doors up to 150 lbs.

This series provides easier and quicker installation than a traditional pocket door frame built on site thanks to its quick release hanger.

- Can be installed in single door or double bi-parting door applications
- Use with CP-801 Extruded Aluminum Header Track, 6061-T5 Alloy.

Size Suitable for 2/0 to 3/0 wide and 6/8 to 7/0 doors

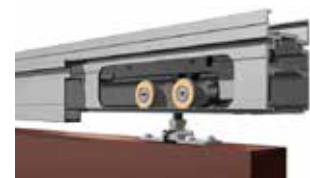

Application Interior, Residential, Commercial

Capacity 150 lbs each

Door Thickness For 1-3/8" to 1-3/4" wood doors

Add-Ons **CC-493 Easy Connect Catch n' Close Hanger**

- Provides easier and quicker installation than a traditional pocket door frame built on site.
- Catch n' Close system prevents bouncing and slamming of the sliding doors and can be installed on both the opening and closing ends of the door.

CC-493 Easy Connect Catch n' Close Hanger

Sliding Door Hardware

2610SC Soft-Close Wall Mount Sliding Door Hardware

For Door Weighing up to 165lbs/75kg Each

The 2610SC is a versatile and easy to install soft-closing wall mounted sliding door hardware set ideally suited where the installation of a Pocket Door is not structurally possible or cost effective, including closets, storage rooms or anywhere space is limited. It is for interior use only and not suited for external applications.

Mounting Applications

Barn Door Hardware Kit

Doors and handles sold separately.

The Bent Barn Door Hardware Kit strap system features a classic face mount flat strap to hang wood doors on a traditional rail track. The large wheels provide excellent strength and durability as-well-as smoothness of travel along the barn door track.

Barn door kit includes hangers, track, dampers and hanging hardware for one barn door weighing up to 250lbs.

Track available in 78-3/4" x 1-9/16" x 1/4" or 96" x 1-9/16" x 1/4".

Acetal wheels with full metal sealed ball bearings ensures a smooth and quiet glide action.

Left and right track stops include dampers to minimize door slamming and rattling.

Suitable for barn doors 1-3/8" and 1-3/4" thick.

Hanger measures 11-3/8" x 2-3/4" x 2-7/16".

Options on pages 38-41.

Single Track Bypass

Barn Door Hardware Kit

Doors and handles sold separately.

A modern twist to a Bent Strap hanger allows the use of the single track for your double barn doors to bypass over each other while still maintaining the smoothness of travel along the track. Available in Matte Black or Satin Nickel.

Quick Hang Hardware for direct to wall installation with no need for a backer board.

Hardened Steel Hardware with offset hangers designed to allow two panels to bypass over an opening on a single flat track.

Door Compatibility Formula:

- Divide door opening by two.
- Add 4" per slab (Example: 60" Opening / 2 = 30" + 4" = 34" Door Slabs Width to fit a 60" Opening)

Door and handles sold separately.

This hardware kit is not compatible with the Easy Clip Soft Close hardware kit.

ALPERTON HANDLE MB

Alperton

- 11-7/8" Handle with 8-5/8" Pull
- Tubular Handle and Rectangular Pull Design
- Includes 2 sets of mounting hardware
- Ideal for 1-3/16" to 1-5/16" and 1-3/8" to 1-3/4" thick doors only
- Finishes: Matte Black, Satin Nickel

Easy Clip Soft-Close Hardware

Easy Clip Soft-Close attachment is designed to install quickly and discreetly onto most flat track barn door hardware kits. This patent pending low profile attachment is hidden behind the track and can be easily installed in minutes to any new or previously mounted barn door kit. The first attachment of its kind attaches on both ends of the track for smooth travel and effortless open and close functionality.

Anti-slam mechanism ensures a soft, gentle open and close.

Nicely concealed behind the barn door track and does not affect the look of your door.

with The Flat Lever - Satin Nickel.*

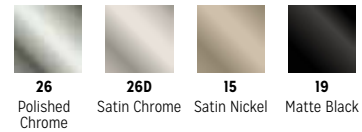

Tecnica series locksets are an Art Moderne inspired line developed to complement any contemporary architectural setting, or to modernize traditional spaces. These solid geometric handles maintain a distinctively clean look and the same robust quality as other Dorex series locksets. Tecnica series levers are recommended by architectural and interior design professionals for both private and public applications

Madero Double Door Jamb Packs

Double door frames are available in MDF and Primed Pine Flat Jamb in both 4-9/16" and 6-9/16" units. The jamb kit includes header cut to length, two hinge jambs prepped for 3 hinges, and two sets of three 3-1/2" hinges (6 finishes to choose from).

Magnetic Catch:

Each Magnetic Catch has a holding capacity of 18 pounds. Zinc plated steel strikes are shipped loose for site install. One magnet is installed into the top of the door. Both doors are active - no handing required.

Roller Catch:

The doors are machined and Roller Catches are installed. Jamb plates are installed on site. Both doors are active - no handing required.

Flushbolt (active door only):

Flushbolts are added to secure the passive side of double doors. The doors and frame are prepped and Flushbolt installed in door. Specify if the right or left hand door is active at time of ordering.

Prehung Door Systems | 1-3/8" Doors

Our door systems make remodelling easy. Factory machined doors, prehung in high-quality jambs combined with 3-1/2" ball bearing hinges, in your choice of 6 finishes.

Ready to Install

- Lock prep for hassle free hardware installation.
- Primed pine fingerjoint jamb, or Primed MDF.

Prehung Door Systems | 1-3/4" Doors

Save time and labour on the job site with prehung assembled door systems. Factory machined doors, prehung in high-quality jambs, 4-1/2" x 4" ball bearing or self-closing hinges.

Ready to Install

- Primed fingerjoint pine with or without kerf.
- Optional 20 Minute Fire Label affixed to frame.
- Optional Door Viewer preparation, Viewer sold separately.

Suite Entry

MULTI-FAMILY FIRE-RATED

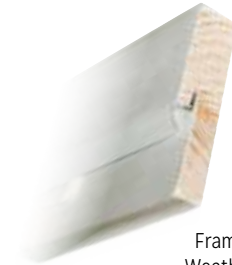

20M Fire Rated Frames

Fire rated doors are often used for house and garage applications or as entrances to Multi-Family dwellings. All 20 Minute fire rated frames are available in 4-9/16", 6-3/4", 7-7/8" or 9". Custom upon request. Machined and labelled in factory - standard sizes will see the door slab 1/4" undersized in width, and 7/8" in height.

With Kerf Weatherstripping

Primed, kiln-dried finger-jointed pine jambs provide beauty and strength with a Warnock Hersey certified 20 minute fire rating. Suitable for interior or exterior use. Weatherstrip available in black or white.

Frame with Kerf Weatherstripping

Without Kerf Weatherstripping

Primed, kiln-dried finger-jointed pine jambs comply with a Warnock Hersey 20 minute fire rating. Optional adhesive smoke seal can be used with this jamb for extra sound and smoke protection.

Consider a prehung system for ease of install.

For 45-90 minute fire ratings, see our selection of galvanized hollow metal frames.

Factory painting available.

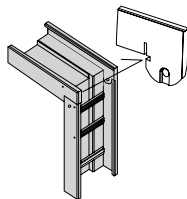

Up to 180 Minute Fire Rated Frames

Usage: Interior or Exterior - Residential, Commercial or Industrial

Expandable EF-K Frame Series

The EF-K Series are an ideal solution for commercial building applications and retrofit work on existing buildings, especially when existing wall types are unknown or vary throughout the project.

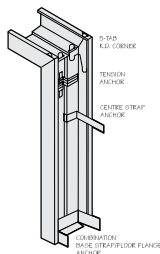

Expandable EF Frame Series (Non-Reversible)

EF Series features a two piece frame component, held together with a bracket system and spot welded to the frame material, allowing the jamb depth to be reduced or increased based on site conditions.

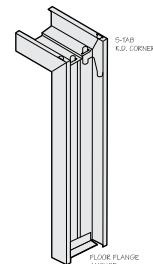

K Series Drywall Frames

K Series Standard are for use with 1-3/4" steel or wood doors. They are available in a variety of standard and non-standardized sizes for use in a broad range of wood or metal stud wall constructions.

Welded Frames

Welded frames are intended for installation during wall construction and are recommended for a wide variety of interior or exterior commercial, industrial, and residential applications. They are brake-formed for tight fitting mitres that are welded and ground to achieve a smooth appearance.

CHECKLIST FOR CUSTOM INTERIOR DOOR MACHINING

Many details come together to create the perfect interior door package. Follow this important checklist to ensure your order is complete and the end result is exactly as you envisioned.

STEP 1

Choose Your Door

- Moulded Panel _____ Flush _____ Glass _____
 Shaker _____ Stile & Rail _____

Choose door size:

Width: 1/6" (18") 2/0 (24") 2/4 (28") 2/6 (30") 2/8 (32") 2/10 (34") 3/0 (36")
 Other (Please Specify) _____

Height: 6/8" (80") 7/0 (84") 8/0 (96") Other (please specify) _____

Thickness: 1-3/8" 1-3/4" **Core:** Hollow Solid

STEP 2

Choose Your Jamb

- Primed Flat Jamb Primed Double Rabbetted (only in 4-1/2") Primed MDF

Jamb Depth: 4-9/16"(2x4) 6-9/16"(2x6) Other (please specify) _____

Stop: Bullnose 3422 (default) Colonial (936)

* Double Rab FJP jamb only available in 4-9/16"

STEP 3

Choose Your Machining Options

Backset: 2-3/8" 2-3/4"

Drilling: 40" 44" Other (please specify) _____

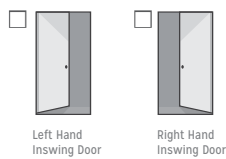

Hinge Quantity: 2 3 4 **Hinge Radius:** 1/4" 5/8" 5/8" SQ/REV

- Hinge Finish:**      
- C-26 Zinc Plated C-4 Brushed Brass C-10B Oil Rubbed Bronze C-15 Satin Nickel C-26D Brushed Chrome C-1D Matte Black

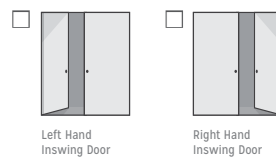

STEP 4

Choose Your Configuration

Single:

Double Doors:

Double Doors Options:

Flushbolts: 1 (top of door) 2 (top and bottom of door)

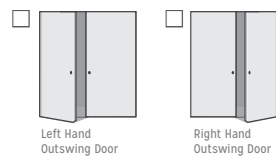

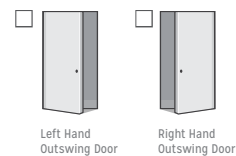

Lockset Drilling: Active Door

Configurations on left can be used for reference.

Both Active & Inactive

Dummy Active

Dummy Active & Inactive
